

ON THE TABLE GUIDE

Placemats

Your fabric - surface laminated with our commercial grade heavy duty clear matte vinyl film and back laminated with 1/16" impact absorbent foam.

Create truly one-of-a-kind Placemats made from decorative fabric that you select. Order multiple sets for different seasons or to compliment each of your different table settings.

Custom Placemats can be made from your own fabric selection. The fabric surface is Vinylized and then backed with a 1/16" thick impact absorbent foam. Placemats come in five shapes and are approximately 12" x 17" in size. Ideal for commercial environments, they are:

- Easy to clean
- Stay new looking longer
- Practical and economical

Free Sample Offer

Simply write, email or call us for a free ready-made sample.

You'll discover that Custom Laminated Placemats are not only durable and practical, but also add a distinctive and stylish touch to the dining table.

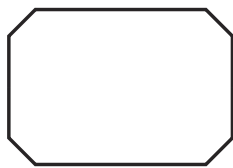

Note: No additional material for work loss is needed when calculating fabric requirements for Custom Laminated Placemats other than what is stated below.

Tablecloths

Your fabric - surface laminated with our commercial grade heavy duty clear matte vinyl film and sewn to your specifications.

Many fabrics make excellent tablecloths. With your own fabric we cut and finish the tablecloth to your specification.

Before we cut and finish your tablecloth, a clear matte vinyl film is laminated to the surface of the fabric, protecting it against stains and spills. The tablecloth can be easily wiped clean. See Vinylizing for more information.

When ordering, specify the table dimensions and desired drop length. For round tables give the diameter of the tabletop and drop length. For rectangular and square tables, specify the length and width, as well as desired drop length.

Notes: We only process continuous yardage. We cannot process your already made tablecloth. Vinylized tablecloths should be rolled up rather than folded for storage.
